PROFESSIONAL SUMMARY

Results-driven Frontend Developer and final-year B.Tech Artificial Intelligence & Data Science student with hands-on experience building and deploying 3 web applications using React, JavaScript, REST APIs, Bootstrap, and MySQL. Proficient in component-based architecture, responsive UI design, and REST API integration. Deployed production-ready projects on Vercel with GitHub integration. Seeking an entry-level Frontend Developer role to build scalable, performant user interfaces.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python

Frontend: React, HTML5, CSS3, Bootstrap, Responsive Design

API & Data: REST API Integration, JSON Processing, Environment Variables (.env)

Database: MySQL – Joins, Structured Queries

Tools & Platforms: Git, GitHub, VS Code, Vercel, npm

PROJECTS

MovieVault – React Movie Information App | *React · Bootstrap · TMDB API · Vercel*

- Built a fully responsive movie browsing app with real-time data from the TMDB API, supporting search across 1,000+ movie records.
- Implemented dynamic multi-page routing with React Router across 3 views (home, listing, detail), reducing navigation friction.
- Secured API keys using .env variables and deployed via Vercel with GitHub integration, achieving zero-downtime CI deployment.

Fresh Mart – Grocery Web Application | *HTML · CSS · JavaScript · MySQL*

- Developed a grocery web interface supporting product listing, user registration, and login validation backed by a MySQL database.
- Designed responsive UI using HTML, CSS, and JavaScript for smooth usability across mobile, tablet, and desktop screens.

Gym Management Web Application | *HTML · CSS · JavaScript*

- Built a membership management interface to store and manage gym subscription records for 50+ simulated members.
- Implemented client-side CRUD logic in JavaScript to add, update, and delete member records with real-time DOM updates.
- Designed structured, responsive layouts using HTML and CSS for clear data presentation across screen sizes.

INTERSHIP

Java Developer Intern – Besant Technologies (Virtual)

2024

- Implemented 10+ Java programs covering OOP concepts — classes, objects, inheritance, and method overriding — through structured assignments.
- Improved debugging efficiency by identifying and resolving logic errors across 5+ assignment-based development tasks.

TRAINING & CERTIFICATIONS

Software Development Training – ICT Academy (Infosys Foundation)

2023

- Completed structured training in software development fundamentals, programming logic, and MySQL query optimization.
- Practiced debugging techniques and query optimization on 10+ guided exercises covering CRUD and relational database design.

EDUCATION

B.Tech – Artificial Intelligence and Data Science

Expected 2025

Gnanamani College of Technology, Namakkal, Tamil Nadu
